THE GARRET (GARY) E. COLE GOLF CLASSIC

This Golf Classic is named in honor of Gary Cole, Past President of the Maine Parkinson Society, who served as volunteer chief executive for more than 10 years. Gary and his family were strong advocates and worked tirelessly to establish a firm foundation for the statewide outreach services of the Maine Parkinson Society.

The Golf Classic is one of the Society's largest fundraisers to help carry out its mission. In addition to a round of golf, participants can enjoy a barbeque, auction area, and a number of prizes and give-aways. Besides sponsorships, goodie bag items, raffle prizes and silent auction items can provide effective branding opportunities.

Parkinson's Disease (PD) is a progressive neurological disorder that typically develops between ages 55 and 65. Symptoms include spontaneous movements, difficulty walking, shaking, slow or uncontrolled facial expressions, rigidity and tremors. Research is being done but the cause is still unknown and there is no cure. However, new advances in treatment and research are very hopeful.

MAINE PARKINSON SOCIETY

The Maine Parkinson Society (MEPS) is a Maine based 501(c)(3) non-profit organization founded to help improve the quality of life for Maine patients with Parkinson's Disease. The Society's funds from sponsorships and donations focus on general awareness of Parkinson's disease, assistance to regional support groups, along with information, education programs and respite care services for patients and their caregivers.

Please consider participating and help improve the quality of life for people with Parkinson's disease through the MEPS.
